4. Disclaimer regarding content

Bifu cannot and does not represent or guarantee that any of the information available through our services or on Bifu is accurate, reliable, current, complete or appropriate for your needs. Various information available through our services or on Bifu may be specially obtained by Bifu from professional businesses or organizations, such as exchanges, news providers, market data providers and other content providers who are believed to be sources of reliable information (collectively, the "Data Providers"). Nevertheless, due to various factors — including the inherent possibility of human and mechanical error — the accuracy, completeness, timeliness, results obtained from use, and correct sequencing of information available through our services and website are not and cannot be guaranteed by Bifu. We make no warranty and assume no obligation or liability for scripts, indicators, ideas and other content of third parties. Your use of any third-party scripts, indicators, ideas and other content is at your sole risk.

5. Disclaimer regarding investment decisions and trading

Decisions to buy, sell, hold or trade in forex, securities, commodities and other investments involve risk and are best made based on the advice of qualified financial professionals. Any trading in forex or other investments involves a risk of substantial losses. The practice of "Day Trading" involves particularly high risks and can cause you to lose substantial sums of money. Before undertaking any trading program, you should consult a qualified financial professional. Please consider carefully whether such trading is suitable for you in light of your financial condition and ability to bear financial risks. Under no circumstances shall we be liable for any loss or damage you or anyone else incurs as a result of any trading or investment activity that you or anyone else engages in based on any information or material you receive through Bifu or our services.

6. Disclaimer regarding hypothetical performance results

Hypothetical performance results have many inherent limitations, some of which are mentioned below. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown. In fact, there are frequently sharp differences between hypothetical performance results and actual results subsequently achieved by any particular trading program.

One of the limitations of hypothetical performance results is that they are generally prepared with the benefit of hindsight. In addition, hypothetical trading does not involve financial risk and no hypothetical trading record can completely account for the impact of financial risk in

actual trading. For example, the ability to withstand losses or to adhere to a particular trading program in spite of the trading losses are material points, which can also adversely affect trading results. There are numerous other factors related to the market in general or to the implementation of any specific trading program which cannot be fully accounted for in the preparation of hypothetical performance results and all of which can adversely affect actual trading results.

7. Registered users

Certain services, such as saving charts, publishing them or the ability to comment on published charts, are available only to registered users of the Bifu website and require you to sign in with a username and password to use them. If you register as a user (a "Subscriber") of any of the features of Bifu, during the registration process you may be prompted to click "Register Now", "Submit" or a similar button; your clicking on such button will further confirm your agreement to be legally bound by these Terms of Use.

In consideration of your use of the Bifu website, you represent that you are of legal age to form a binding contract and are not a person barred from receiving Bifu services under the laws of applicable jurisdiction. You also agree to: (a) provide true, accurate, current and complete information about yourself as prompted by Bifu's registration form (the "Registration Data") and (b) maintain and promptly update the Registration Data to keep it true, accurate, current and complete. If you provide any information that is untrue, inaccurate, not current or incomplete, or Bifu has reasonable grounds to suspect that such information is untrue, inaccurate, not current or incomplete, Bifu has the right to suspend or terminate your account and refuse any and all current or future use of the Bifu services (or any portion thereof).

You represent and warrant that you have all intellectual property rights, including all necessary patent, trademark, trade secret, copyright or other proprietary rights, in and to your content. If you use third-party materials, you represent and warrant that you have the right to distribute third-party material in the content. You agree that you will not submit material that is copyrighted, protected by trade secret or otherwise subject to third party proprietary rights, including patent, privacy and publicity rights, unless you are the owner of such rights or have permission from their rightful owner to submit the material.

We may remove your content without notice if we reasonably believe that you're in violation of our Terms of Use.

8. Derived Data

Our proprietary derivation consumes raw market data and executes a 2-factor derivation process to produce the displayed price, later consumed by the price engine. Derived market data is sourced and supplied from various sources and can therefore be blended.

The derivation process involves changing the raw price by a factor determined by the volume of trading on the underlying market, a randomized variable and a maximum offset amount. The derived data price is only ever displayed to our non-professional clients, the derived data price then being the proprietary value of an organization. At no point is raw data accessible by any

client, nor can said data be reverse engineered in any manner. All markets are passed through the same derivation engine.

9. Access and security

You accept responsibility for the confidentiality and use of any username and email address that use to register for your access to and use of our services. You are responsible for maintaining the confidentiality of your password and account and are fully responsible for all activities that occur under your password or account. You agree to (a) immediately notify Bifu of any unauthorized use of your password or account or any other breach of security, and (b) ensure that you exit from your account at the end of each session. Bifu cannot and will not be liable for any loss or damage arising from your failure to comply.

Bifu considers private information on the site (source code of protected or invite-only scripts, etc.) to be confidential to you. Bifu protects such private information from unauthorized use, access, or disclosure in the same manner that it protects personal data (please refer to our Privacy Policy for more information).
